

LARGE2000 BASS TRAP PANEL

~~€ 185.00~~ € 170.00

Music audition rooms, conference room, cinema, studios, pubs, etc. All need a surface that is efficient at absorbing. Bass trap **LARGE2000 panel** absorbs high frequencies and is meant to be mounted on walls and ceiling, especially designed to be a main element in the construction of rooms. Acoustics panels and bass traps from europeacoustics.com is built in a box, which has a membrane manufactured by us. **Acoustics Panels** and Bass trap **LARGE2000** high performance panel, easy-to-install. It was designed to absorb and reflex the incident sound on the back, front or side walls, reducing the low energy that is present in excessive levels at the point of hearing. Therefore, it reduces unwanted resonances and helps to accommodate and improve sound perception
